Happy Halloween

RECORD PHOTO BY BRETT MITCHELL

The Disbrowe family on Eveline Street in Selkirk are ready to scare the Snickers out of Trick or Treaters this year! A few helpful hints when you hit the streets: parents should always keep track of where their kids are, wear bright and warm costumes and check that candy. Please be safe out there this Halloween.

Canadian Premium Sand holds open house exploring Solar Glass Manufacturing

Residents asked to give feedback on possibility of new manufacturing plant in Selkirk

By Katelyn Boulanger

Last week Canadian Premium Sand held an open house to see how residents in Selkirk felt about having a solar glass manufacturing facility in their community. If this project gets approved, it will be the only facility of its kind in North America.

"It's a very specific kind of glass we're manufacturing. It's the type of glass that's required for solar panels. That's our target market," said CPS's president and CEO Glenn Leroux.

CPS has been working on various projects involving glass manufacturing throughout the years and so there have been a number of different plans proposed during that time. Though they are still currently waiting on final approvals for this project, this open house introduced the project to the residents of Selkirk in a more finalized state in order to receive their feedback.

The plan, as laid out at the open house, is for the sand for this project to be extracted from a quarry site north of Selkirk. More information about the project plan outside of Selkirk is available on the CPS website. The sand will then be trucked to Selkirk where the company plans to build a manufacturing plant on the northwest corner of the intersection of Manitoba Highways 4 and 9A.

Selkirk was chosen for this project for a variety of factors.

"There isn't a single manufacturer of this type of glass in North America. Every piece of it currently comes from China or another Pacific Rim country. We have sand. Selkirk has the land and the mandate for sustainable development and a vision for how they want to industry and these types of

industries here. So, we have a very welcoming community," said Leroux.

Once Selkirk was chosen the project went through a feasibility study on CPS's end and is now on to a pre-construction phase where a detailed design of the plant is being made. This should be complete by the end of the year. Additionally, at this time, CPS has applied for permits to develop the plant on the land and which they should hear back about early next year.

Leroux says that the company wanted to engage with our community at this time for a few reasons.

"It's the right thing to do to engage the community because we want people to be excited about this not mystified by it. And so, the only way to do that is to have an open house and provide as much information and facts as we can, so that people are informed, and they can make their own informed decisions. [In addition,] what we are trying to avoid is uninformed opinions. And so this, that's a key part of that. Also, it's an important step in the environmental license application because they'll say, 'Well, that's great, guys, everything looks good. What does the public think?' And if we haven't opened this up to the public, and solicited the feedback, we can't really honestly answer that question," said Leroux.

There were a few different points that Leroux and representatives from CPS wanted to get across at this open house.

The first is that they say the business will be environmentally sustainable. Leroux admits that it does require a

Remembrance Day poppy campaign begins in region

Selkirk mayor Larry Johannson receives first poppy

By Katelyn Boulanger

The Selkirk Legion kicked off its 2022 poppy campaign by pinning the first of many poppies that people will don in our community, to Selkirk Mayor Larry Johannson's lapel.

"I think with what's going on in the world now, [the importance of supporting our veterans] pretty well speaks for itself. With the invasion of Ukraine, it just tears people's hearts out when we see the devastation and the destruction there and I think back to my dad and uncles that were in World War Two, and how this is very reminiscent of what Germany was doing with the countries at that time. It's a scary, scary time for us and we can never forget," said Johannson.

The poppy campaign is a way that residents can show their support for our country's veterans during the Remembrance Day period. The poppy should be worn on the left side of your shirt or jacket so that it is over your heart.

Though the poppies are free, the Legion is accepting donations to the poppy fund alongside them. These donations are held in trust at the branch level to directly support veterans and their families within their community. Past campaigns have supported upgrades to the Legion to make it more accessible for veterans, there have also been contributions to the Selkirk Hospital as well as local nursing homes which help veterans and other community members alike.

"[The campaign is] designed to help

the vets and their families as much as we can. With the fundraising that we accomplish and that's still the main goal," said Wayne Bird, poppy officer at the Selkirk Legion.

Poppy boxes will be throughout the community. Volunteers will also be at Selkirk Walmart manning a table from 10 a.m. to 7 p.m. starting on Oct. 28 and continuing throughout the campaign should you want to get your poppy in person.

Something that the volunteers have noticed since the COVID-19 pandemic is that residents in our community seem to not be carrying as much cash on them for donations. Because the poppy campaign only accepts cash for donations locally, they ask that if you are planning to donate you make a point of grabbing a few dollars before you leave the house.

Even with the pandemic affecting the poppy campaign for the past two years, Bird says that our community continued to be very supportive and now that the campaign will be able to proceed as it did before the pandemic, he expects that the support will continue to be high.

"I always thank Selkirk and the surrounding community for their generous contributions to the poppy fund," said Bird.

RECORD PHOTO BY KATELYN BOULANGER

> SOLAR GLASS, FROM PG. 3

large amount of energy to melt sand, dolomite and limestone into their final product, but he says once the solar panels are put into production they immediately start to offset other forms of carbon intensive energy required.

They also emphasized that should this manufacturing plant go forward that they will require people from a variety of backgrounds and education levels in the community to fill positions.

Finally, they wanted to get across that this is a long-term project that they hope will turn into something larger.

"We believe that this could be a catalyst for other silica related industries. We have to start somehow and we have to start manufacturing again in this country. This is ridiculous that there's no glass produced here. Not a single piece of flat glass is produced in Canada. Nothing —

your automobile windshield, your computer screen, the windows in your house — nothing that's flat is produced in this country. We make some bottles. Countries a fraction of the size of ours make their own glass," said Leroux.

Optimistically, if all the permits come through, he hopes that the project will be able to start construction in the second quarter of next year and the construction project itself will likely take about two years.

For residents that would like to learn more about the project, the latest information is available at CPSglass.com and this website will be updated as the project progresses.

Secret Path mural unveiled in Selkirk

RECORD PHOTOS BY KATELYN BOULANGER

The Secret Path mural which commemorates the life of Chanie Wenjack was unveiled last weekend. Chanie was a young boy who attended a residential school in northwestern Ontario. One day he ran away and later his body was found. At the event, Ruth Christie told Chanie's story while speakers, including Murray Sinclair, took to the stage to discuss the residential school system and the damage that it caused and continues to cause to Indigenous students, families and communities. Martina Fisher, a residential school survivor, spoke about the importance of holding spaces in our communities to remember the children who went to residential schools. "For healing to happen and in order for all people to be on the same page, we need as many healing places to be built [as we can]. So, that Indian residential school survivors and families can go there to heal," she said.

Selkirk and Area RCMP provide Halloween Safety Tips

Submitted By Selkirk RCMP

Halloween is fast approaching and Selkirk and Area RCMP want to share some safety tips that will make your night spooktacular.

1) For your Halloween costume, use make-up instead of a mask, so that your visibility is not affected. You want to be able to see how much candy you can get. In addition, dress for the weather. Check your local weather and bundle up under that awesome costume if it's going to be cold.

2) For our Halloween trick-or-treating route, know where you are going and respect the yards you visit. Use the sidewalks as there sometimes may be hidden hazards you cannot see. Also, only visit houses that are lit up for Halloween. If their light is off, move on to the next house.

3) Halloween is more fun with friends. Join a group of family and/or friends when going trick-or-treating and don't forget to have an adult check over your candy when you get home.

4) The rules of the road still apply during Halloween. Be extra careful crossing streets as there will more vehicles on the road. Some extra spooky costumes can be hard for cars to see so maybe add some reflective tape to your outfit so you can be seen.

Selkirk and Area RCMP hope your Halloween is fun and safe.

Cst. Paul Human, Selkirk RCMP and Cherise Fetterley, Canadian Tire employee.

A denture success story after a life changing decision

BY ELISHA VANDOR

Manuela decided it was time for a change after struggling with failing and broken teeth for years. She says, "my dental situation was a nightmare after a jaw bone/gum infection years ago. The only 'fix' from the dentist back in my home country was to pull some of the bad teeth and get partial dentures, but I suffered with the bones in my mouth chipping and sticking out and cutting my gums and so on. I've been dealing with that issue since 2018 and have extremely bad anxiety when it comes to dentists because of childhood dental trauma. However, Brock at Vandor Denture Centre and Dr. Brett at Evergreen Dental saved my sanity, fear of dentists and future."

It all started when Manuela booked a consultation appointment with us. Although she was still nervous about

the entire process, her ability to sit down and talk about her options and come up with a plan together with Denturist Brock subsided her dental anxiety. At the appointment, Brock assessed her full upper and lower dentures and found she was doing well with the upper denture, but wanted a dental implant solution for the lower denture. We often find that the lower denture is the one people struggle with the most because there's usually very little jaw bone to hold it in place. Together, during the consultation, Manuela and Brock decided to make a new upper denture with much improved aesthetics and a tighter fit, and a lower denture that's secured onto 4 dental implants to give her back the confidence to eat what she wants.

Manuela had the dental

implant procedure and actually had the denture secured onto the dental implants that day! She says, "tonight, I'm happy for the first time in 22 years of what my mouth looks like. I feel awesome! I will be able to eat everything again in no time - something I wasn't able to do since I was 17. This is one happy old lady today."

We are so happy for Manuela and the many others who have benefitted from combining their dentures with dental implants. Having a youthful smile that feels like you again and the confidence that comes with it is achievable. We want to help you feel as good as Manuela does now too. If you're inquiring about a dental a implant solution or know your dentures could be better, then call today. We look forward to hearing from and seeing you soon!

- supplied photo -

Manuela is happy with her dentures for the first time in 22 years and shares her story.

Red River Planning District moving to new location

Services moving from Selkirk to East St. Paul will cause minimal interruption of in-person service and online services will continue throughout

By Katelyn Boulanger

The Red River Planning District is moving to a different location where it will provide planning services for residents of Rural Municipalities of St. Andrews, St. Clements, East St. Paul, West St. Paul, and the Village of Dunnottar.

"If you're looking to build a deck, if you're looking to build a new home, if you're looking to subdivide your property, you come to us and we administer the process on behalf of member municipalities," said Jennifer Ferguson, Executive Director of RRPD.

A release from RRPD said that this

change was a result of "The City of Selkirk withdrawing from the RRPD in early 2022 to establish its own planning department. The RRPD's Board of Directors wanted to ensure that RRPD was housed within the member municipalities it serves, so they searched for a new, accessible location that met the transportation needs of staff and most clients."

Services will move from their current Selkirk location on Oct. 28 and resume at their new location at 2978 Birds Hill Road in East St. Paul on Nov. 1. Because of the weekend, this means that in-person services will only be interrupted for one day on

Oct. 31.

"The move is happening. It's happening behind the scenes. We already have some staff at the new location, but we're just not going to be open to the public until the first," explained Ferguson.

She also said that employees will continue to provide digital services.

"We'll still be answering emails. Our staff are still working behind the scenes but other than that, it's business as usual for us," said Ferguson.

For residents who are not familiar with the area, the new location is close to the intersection of Highway 59 and Birds Hill Road. When you are travelling from Highway 59 it is just before and on the opposite side of the street of the East St. Paul fire hall.

The new location for RRPD was chosen because it made sense for residents and dispatching services.

"Commercial real estate is quite limited at this point in time. We did know

that there was limited availability, and this property became available to us and it makes perfect sense. Presently, there's a lot of activity in East and West St. Paul, it's conveniently located near Highway 59 and close to the perimeter so it's easy for people to get to in terms of our clients, our staff, and easy to dispatch services for our inspectors who are out in the field," said Ferguson.

Though since introducing online permit software RRPD has experienced a decrease in in-person business Ferguson encourages residents who would like to seek their services in person to stop by.

"We're always in the office, happy to help people if they need help with their applications. If they want to come and see us ask questions, our staff are there ready to help and ready to answer questions," she said.

55+ Active Lifestyle Expo brings resources for community seniors

By Autumn Fehr

Last Friday, Oct. 21, the Gordon Howard Centre and Selkirk Services to Seniors put on their first-ever 55+ Active Lifestyle Expo.

The event provided much information in the health and wellness category for older adults in the community of Selkirk.

The 55+ Active Lifestyle Expo was put on in collaboration with organizations in the community for seniors to learn about and access resources available in the area regarding health, wellness and more.

"I tried to cover any kind of need an older person would have, and they're looking in the community for, and I want them to find it in their community if they can," said Elin Macleod, the program coordinator at the Gordon Howard Centre.

At the event, there were various booths, with representatives from different organizations sharing information about what they offered for anyone interested in learning more or needing those services.

Altogether there were 26 booths. Some organizations came out: CancerCare Manitoba, Nova House, the Regional Health Authority, the police, the fire department, a lawyer, a nu-

tritionist, Nurture Your Senses, and more.

"I'm hoping next year it's just going to grow and get bigger and bigger, and more people are going to hear about it, and more people are going to want to come," said Macleod.

Macleod said she has people come to her daily asking where they can go for different health and wellness supports in the community, so what she is trying to do with the event is bring them all together under one roof so people can find out for themselves where they can go for what they need.

She said the idea came from Nova House's Wellness Day which she attended.

"As I walked around, I thought what a great event, and I went, why don't I have this for older people."

"I wanted it to zero in on the aging population and different ways we could help them, and find all these places they could go to get help and what they need... It's a one-stop shop where they can get all this information," she said.

Macleod said they are always there to help, but this event provides extra help for the seniors in the community,

and by keeping the event going next year, people will be aware of where to go and whom to contact.

"I think way more people are go-

ing to jump on board after this one. I think it's going to get better and better," said Macleod.

"I WANTED IT TO ZERO IN ON THE AGING POPULATION AND DIFFERENT WAYS WE COULD HELP THEM."

With **Efficiency Manitoba's Appliance Recycling Program**, we'll pick up, recycle, and give you \$30 for your old working fridge or freezer.

There are lots of benefits to participating:

- ✔ You'll save on your monthly energy bill.
- ✔ You'll get \$30 for each working fridge or freezer you recycle.
- ✔ We'll recycle up to 95% of your appliance and you'll feel good knowing it doesn't end up in the landfill.
- ✔ While we're at your home, we can also haul away your old dehumidifier, window air conditioner, bar fridge, or bar freezer for free.

Book your pick-up today.

MB sees large jump in COVID hospitalizations, XBB variant in 26 countries

By Patricia Barrett

COVID hospitalizations and infections saw a sharp increase in Manitoba, according to the provincial government's weekly COVID surveillance report for the period Oct. 9-15 (reporting Week 41).

There were 103 hospital admissions that week, up 30 compared to the previous week's report of 73 admissions. Fourteen of those people needed treatment in the intensive care unit.

The provincial government doesn't provide in its surveillance reports the number of people with COVID in the hospital and ICU on any given day or week.

Nine more Manitobans lost their lives to the virus. The province's death toll rose from the 2,190 reported the previous week to 2,199.

The report for Week 41 also shows there were also 402 new COVID infections, up 61 cases from the previous week's report of 341. The positivity rate also jumped to 29.6 per cent, up from 24.1 per cent.

The government's data are an undercount of the true number of infections in Manitoba as PCR lab tests are restricted and rapid antigen tests aren't tracked.

Wastewater surveillance data for the city of Winnipeg as of Oct. 13 indicated increased COVID activity.

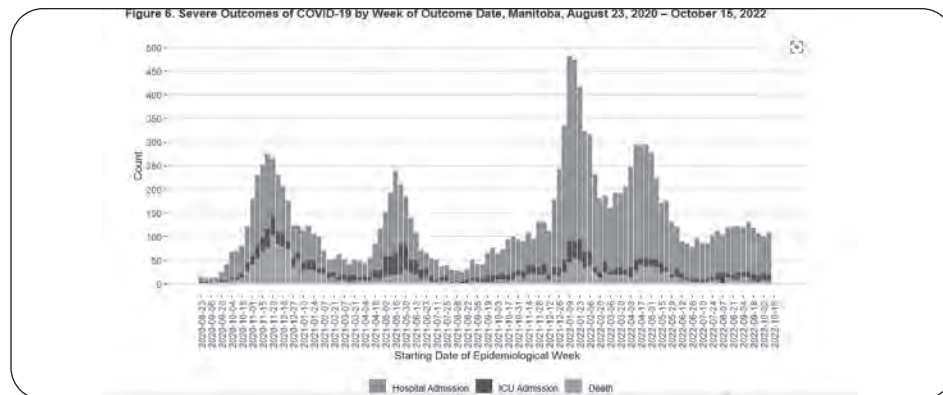

Other health news:

-A new COVID outbreak at the Stonewall hospital was declared on Oct. 14.

The outbreak at Kin Place Personal Care Home in Oakbank continues (as of Oct. 21).

-There were 21,188 new COVID infections across Canada (for provinces and territories that report infections) for the period Oct. 9-15, with Ontario having the highest number of new infections at 9,689. Case counts are underestimates because of changes to testing policies, according to the federal government's COVID website.

Between Oct. 10 and Oct. 17, the total number of hospital beds occupied by COVID patients increased from

RECORD GOVERNMENT OF MANITOBA

Hospital admissions (green line) have remained consistently elevated since spring, with another surge in admissions reported over the period Oct. 9-15.

3,550 to 3,875 beds, and the number of COVID patients having to be mechanically ventilated increased from 85 to 93.

Deaths from COVID rose significantly in Ontario and Nova Scotia over the most recent reporting period. Ontario had 109 deaths from the virus, its highest since spring, while Nova Scotia reported 17 deaths, its highest since summer.

-Worldwide, there were 2.9 million new cases of the COVID reported over the period Oct. 10-16, according to the World Health Organization, and about 8,300 deaths.

The WHO also reported an alarming increase in the spread of new COVID variants such as XBB. The variant has a "higher growth advantage" over omicron and its subvariants, but evidence is not yet available as to its severity.

"As of 17 October 2022, XBB, a BA.2.10.1 and BA.2.75 recombinant with 14 additional mutations in the BA.2 spike protein, has been reported by 26 countries," said the WHO in its weekly update. "Available preliminary laboratory-based evidence suggests that XBB is the most antibody-evasive SARS-CoV-2 variant identified to date."

-Emergency Room service at hospitals across the Interlake-Eastern Regional Health Authority for the period Nov. 1-15 shows significant unavailability at the Eriksdale and

Arborg hospitals. ERs at the Ashern, Gimli, Selkirk and Stonewall hospitals show full availability. Pine Falls' ER remains temporarily suspended.

-Health Canada recalled last week a number of dry shampoo products containing benzene.

"Benzene is classified as a human carcinogen. Exposure to benzene can occur by inhalation, orally, and through the skin and it can result in cancers including leukemia and blood disorders which can be life-threatening," states the agency on its recalls and alerts website.

The recall focuses on certain lots of Bed Head TIGI, Dove and Tresemmé dry shampoo products in aerosol cans. They are as follows:

Bed Head Dirty Secret Dry Shampoo 6.2 oz/179g, 300mL; Bed Head Mini Dirty Secret Dry Shampoo 2.1 oz/58g, 100mL; Bed Head OH Bee Hive Dry Shampoo 5 oz/142g, 238mL; Dove Care Between Washes Fresh Coconut Dry Shampoo, 142g; Dove Care Between Washes Go Active Dry Shampoo, 142g; Dove Care Between Washes Invigorating Dry Shampoo, 142g; Dove Care Between Washes Invisible Dry Shampoo, 142g; Dove Charcoal & Clarify Dry Shampoo, 142g; Dove Refresh + Care Fresh & Floral Dry Shampoo, 142g; Dove Refresh + Care Unscented Dry Shampoo, 142g.

Veteran Tommy Prince honoured with stamp

RECORD PHOTOS BY BRETT MITCHELL

Indigenous war veteran Tommy Prince from Brokenhead Ojibway Nation has had a Canadian postage stamp created in his honour. Prince fought in both the Second World War and the Korean war earning 11 medals total and was one of only three soldiers in WWII to be awarded both the Military Medal and the Silver Star. He faced discrimination once he returned to Canada and was an advocate for the rights of Indigenous people. A ceremony at the Canadian Museum of Human Rights took place last week where the stamp was revealed. Pictured clockwise from top left: Chief Gordon Bluesky from Brokenhead, the stamp being revealed, and William Prince performing at the event.

Award winning designer points RRTN in the right direction

By Tammy Karatchuk

In September, designer Stephen Boyd won silver at the 2022 Summit Creative Awards in Portland, Oregon, for the redesign of Red River North Tourism's logo.

The awards are a worldwide competition, and the redesign category included 19 countries.

"I always feel flattered mixed with a bit of personal satisfaction when I receive recognition," said Boyd, "and I am always quick to credit my wife. My first year of business we had won what is called a 'Signature Award,' the provincial advertising awards here in Manitoba, and my wife posed a question to me. She said 'If you can win these, why can you not win other awards.'"

Boyd looked into international competitions "to test her theory."

"She was right," said Boyd. "We have had some real success with recognition, covering almost the whole spectrum from illustration projects all the way to marketing effectiveness awards for large multi-level campaigns. Just last year 2021, I was awarded my first award for philanthropy. A bucket list achievement."

Redesigning is Boyd's favourite category. He enjoys the challenge of tak-

ing on an existing product or idea.

"It is more of a challenge to win over your audience as some of them may have strong feelings about what already exists and may have been resistant to the idea of a new approach."

Boyd shares the credit with his clients because they are the ones who allow for the type of work to happen.

"Clients that believe and trust in the process and your abilities (and) ones that you can work with hand in hand to bring their vision to light."

Lois Wales president of RRNT said it took Boyd about two months to complete the redesign.

Boyd kept the existing elements and he reimaged them into the new logo based on interactions and conversations with people at RRNT.

"We wanted to make sure tourism was front and centre," said Wales. "The new design is more modern. I think it shows the three municipalities ... better. It's just more fresh."

When the RRNT saw the redesign for the first time, they were sold.

"It was so stunning the way he did it," said Wales. "For me, I really liked the compass. It really stood out in there. It just brought all three municipalities together. He's a great design-

er. I'm just so glad that we found him."

At the Summit Creative Awards, Boyd also won gold for the Rural Municipality of Alexander's re-designed logo, which shared the same category as the RRNT.

"So, this year I beat myself, I guess? Very flattering and humorous to say the least."

Boyd has been an independent graphic designer for almost 28 years, and a one-person shop for

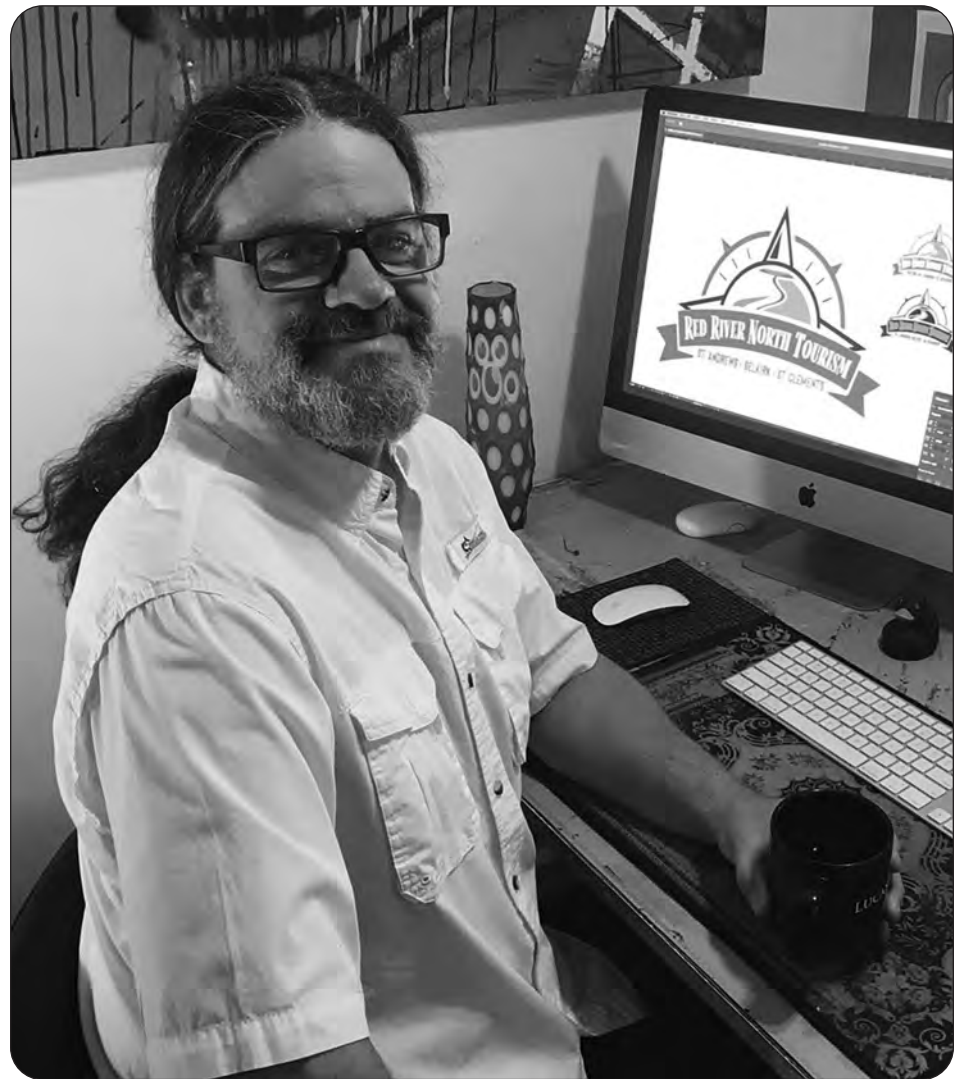

PHOTO SUBMITTED BY STEPHEN BOYD

Stephen Boyd working on the new design for Red River North Tourism in his home studio.

17. He used to own Propeller Designs in Winnipeg. Although Boyd works alone, he does build teams, turning to colleagues when the project is beyond his scope, which is a cost-effective versatile approach.

"The ability to adapt is important, how advertising and marketing can be best effective is constantly changing," said Boyd. "I am still a very traditional designer in many ways but I continually try to learn and understand how my industry is changing so I can maintain my position in it."

Before and after Boyd graduated from the advertising arts program at Winnipeg's Red River College, he was working at McKim Communications as a Junior Layout Artist.

"(McKim's) Creative Director be-

came my mentor for a solid two to three years to better shape and prepare me for a long and productive career," said Boyd. "I credit my mentor as the largest influence in my career. Without her and her guidance, I would not be the designer I am today."

Boyd operates a small studio from his and his wife's forever home near Lake Winnipeg. Having his own studio allows him to be creative and messy and out of everyone's hair.

"Currently, I am trying to land another logo redesign and marketing package project for a semi-remote Manitoba Fishing Lodge. As well as a potential capital campaign to build awareness for a larger corporation out of the big city looking for some creative help with their products and company."

Boyd's career path provides him with an "enormous amount of variety in what comes across your desk."

"One day I could be designing packaging for a pet food company, and the next it is a set of yearly financial statements for an annual report and then onto a logo project like RRNT's."

Notice of Environment Act Proposal

Manitoba Environment, Climate and Parks has received a proposal pursuant to The Environment Act regarding the following operation and invites public participation in the review process:

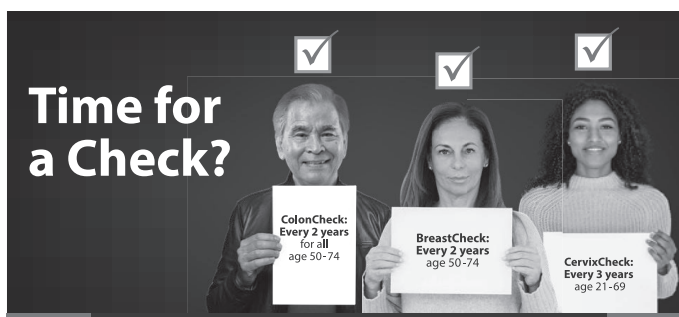

CANADIAN PREMIUM SAND INC. - SELKIRK SOLAR GLASS MANUFACTURING FACILITY - FILE: 6137.00

Canadian Premium Sand Inc. filed an Environment Act Proposal to manufacture solar glass at Lot 1 Plan 60001 WLTO in River Lots 67 to 70, Parish of St. Clements, in the City of Selkirk, Manitoba. The facility will use high-purity and low-iron silica sand sourced from a quarry near Seymourville, Manitoba. There will be two phases. In phase one, the facility will manufacture 600 to 800 tonnes of glass per day; the capacity will increase to 1,200 tonnes per day in phase two. Air dispersion modelling, noise assessment, and traffic studies will take place to assess potential environmental effects. The facility will use the City of Selkirk's wastewater effluent as a water source. The facility will supply glass to solar panel manufacturers throughout North America.

Anyone likely to be affected by the above operation and who wishes to comment on the proposal should contact Eshetu Beshada, Senior Environmental Engineer, in writing or by email at Eshetu.Beshada@gov.mb.ca not later than November 28, 2022. Further information is available from the Online Public Registry: www.gov.mb.ca/sd/eal/registries

Information submitted in response to this proposal is considered public information and will be made available to the proponent and placed on the public registry established in accordance with Section 17 of The Environment Act.

Celebrating Elder Christie and songs about Lake Winnipeg

Holiday Alley talks entertainment lineup

Submitted By Holiday Alley

Selkirk's own Elder Ruth Christie helped inspire singer songwriter Daniel Jordan's new EP on songs about life - and death - on Lake Winnipeg. Inspired by their collaboration, Holiday Alley will host an intimate evening of songs and stories that remind everyone that Manitoba has its own in-land sea, stories and now songs on Thursday, Nov. 24, 7-8:30 p.m. at Christ Church, Selkirk.

The concert opens with feature local fiddling prodigy, 16-year old Morgan Grace, who has been a regular performer at Holiday Alley since its inception.

Headlining the event is Daniel Jordan, whose seven-song EP Songs from the Inland Sea features seven new songs inspired by the Interlake and its waterways, Jordan's EP includes a song entitled Three Sisters based on a story Elder Ruth Christie grew up with while living at Loon Straits. Christie is a distinguished Indigenous knowledge keeper, an Order of Canada and Order of Manitoba recipient member. A descendant of Selkirk farmers, Jordan wanted to learn the history of the land, and collaborate with the Indigenous com-

munity living here and displaced by Selkirk settlers, as his own act of reconciliation.

"Elder Ruth Christie is a bit of a legend, and many people encouraged me to connect with her when I started my own reconciliation journey. I am so glad I did. After our first (four hour) meeting I felt I had enough inspiration to fill dozens of CDs. In the end her story about the names of the waves on Lake Winnipeg- the three sisters- Agnes, Mable and Becky became the backbone of one of the songs. I am excited to bring the music to Selkirk and to honour Elder Ruth Christie, in doing so" said Jordan.

Daniel will take the audience through his whole EP, sharing songs inspired by local history, from the quarantine wedding of 1877 (Netley Creek) to his own take on the legend of John Ramsay (Elder Christie's great grandfather). He will be joined by Selkirk/Eriksdale/Winnipeg songstress Heitha Forsyth (Sol James), a returning Holiday Alley performer.

Admission is by donation, tickets available at <https://holidayalleyconcert.eventbrite.ca/>.

OF MANITOBA

We promote the safe and ethical delivery of quality medical care by physicians in Manitoba.

October 24-28 is Canadian Patient Safety Week

Safety conversations are an important step in building a proactive patient safety culture. With health systems under strain, it's more important now than ever.

CPSM encourages honest discussions between you and your medical care provider. Just one conversation can change how we think about patient safety and quality of care.

For patient safety resources, visit healthcareexcellence.ca

About the College of Physicians and Surgeons of Manitoba (CPSM)

CPSM is the medical regulatory body that oversees the practice of medicine in Manitoba. We are guided by our responsibility to protect the public. We follow the framework in *The Regulated Health Professions Act*.

All physicians, residents, clinical assistants, physician assistants, medical and physician assistant students in Manitoba must be registered with CPSM.

CPSM protects the public through three core functions:

- 1. REGISTRATION** ensures everyone registered to practice medicine in Manitoba is competent to practice and meets all the established registration requirements. Our **Practitioner Profile Search** contains information about all physicians practising in the province. Search by name, location, or field of practice.
- 2. QUALITY** monitors the professional competency of practice and promotes safe care through ongoing educational and quality improvement initiatives.
- 3. COMPLAINTS AND INVESTIGATIONS** addresses concerns regarding the care provided by, or the professional conduct of registrants. Disciplinary Actions and a Complaints Submission Tool are available to the public online.

Healthcare Fair fills high school library

Students learn about different ways they can help members of our community stay well

Submitted by the IERHA

Close to 200 students cycled through the library at the high school in Selkirk on Oct. 19 to learn about a career in health care.

Each booth had health-care staff showing the students about professions like home care, support services such as housekeeper and dietary, nursing in emergency departments and surgery, as well as long-term care facilities. They also learned about careers in occupational therapy, physiotherapy, pharmacy, paramedics and mental health services.

Starlene Mosienko, career and apprenticeship counsellor co-ordinator with Lord Selkirk Regional Comprehensive Secondary School, said the event is good exposure for the Grade 10 to 12 students whose understanding of health care could be limited to just doctors and nurses.

"Hearing about professions they

haven't heard of and the education level to get there helps them understand what else is out there," she said. "After health-care symposiums in the past, I find I have students asking about other professions such as occupational therapy, physiotherapy, respiratory therapy, etc."

Some students also work in health care while still in high school, said Katie Richliew, support services manager at Selkirk Regional Health Centre.

"I've hired many students who take on one or two shifts a week," she said. "It's a good experience for them to get an entry-level position and look around to see how things work in a medical field so they can make a good decision about which career they want to proceed in the future."

Interlake-Eastern RHA is hiring licensed practical nurses, dietary cooks, housekeepers, health-care aides and

uncertified healthcare aides.

Visually Speaking exhibit to comes to Gwen Fox Gallery this week

Clyde Finlay, Gayle Halliwell, Bev Hart and Marilyn McNish will exhibit art and bring workshops to local gallery this month

By Katelyn Boulanger

This month Selkirk's Gwen Fox Gallery is playing host to four more artists from the region's vast artistic community. Clyde Finlay, Gayle Halliwell, Bev Hart and Marilyn McNish have teamed up to create the gallery's latest exhibition, Visually Speaking which is up in the gallery until Nov. 19.

"Each painting tells a story and if you look at each wall of paintings, each wall tells a story together that's slightly different. And so, that's the visually speaking part. This is the story of what we've been doing, and how we came together. And, we invite people to look at it and think about what these paintings say to them individually and as a group," said artist Gayle Halliwell.

In addition to the exhibition this month, the artists have decided to make the visual conversation two ways with workshops taking place throughout the month.

On Nov. 2, 9, and 16 from 1-2 p.m. Bev Hart will be hosting Art Talks. On Nov. 4 from 1-2 p.m. Marilyn McNish will be putting on a Polyptych Wall Art Workshop. Nov. 10 will see Halliwell taking on a Speaking Visually Workshop from 1:30 to 3 p.m. and the final event will be on Nov. 15 from 1-2 p.m. when Clyde Finlay will host a watercolour demonstration.

All of these workshops are free to the public and the gallery is always free to check out from Tuesday to Saturday from 11 a.m. to 4 p.m.

Clyde Finlay

Finlay is an artist that creates in many mediums. Residents may remember him from his previous gallery show in which he exhibited watercolour pieces primarily but this time he's wowing with colour and multimedia Bauhaus inspired art.

"The art that I have is strictly abstract art, contemporary, and also, from my emotional aspect of how I feel," said Finlay.

Some of the pieces that Finlay is exhibiting this month are well travelled having been shown in shows in Europe and the U.S.

He says that his inspiration to create abstract pieces came from his time as a student.

"When I was at university, I was studying a lot about abstract and con-

temporary art, and the historical aspect of it coming from Europe. And, of course, those artists came to North America, and so on and so forth. And so, I started studying that, and really looking into the styles that I wanted to play with," he said.

"It was very experimental but it also had to do with my emotions about being in a position where I was working all the time, because I was working full time at that particular time, and so it was hard for me to regain, getting into my art, that sort of thing."

Finlay says that he started on his artistic journey because he wanted to cultivate something that he could retire into. It took him many years of study to achieve his arts degree from university but now he passes on his artistic knowledge with classes for children and people experiencing mental health challenges as art therapy.

His advice for people wanting to learn more about art is to learn about it by trying a variety of experiences.

"It's very encouraging to see how other people, whether they're children, or whether they're adults, come together and want to do the same kind of things in their own way. And so, variety for me is really important for them to understand," he said.

Gayle Halliwell

Halliwell is a watercolour artist who brought a variety of her water inspired pieces to the gallery this month for residents to enjoy.

"Primarily they are images of the lake, or its tributaries, or the land around the lake because I have lake water in my blood. And so, it's my muse. The lake, it's my inspiration," she said.

Halliwell enjoys adding aspects of opposition to her pieces with some showing the beauty of the lake and others sparking a discussion about its fragility from endangered species to the destructive algae blooms. This month at the

gallery she primary has pieces that showcase Lake Winnipeg's beauty with both more realistic and abstract style pieces.

"Watercolor lends itself to that middle ground. I like that middle ground, because then as the painting develops, they kind of take on their own personalities," she said.

As an adult, Halliwell decided that she wanted to take on the task of propelling her inspiration into her art.

"For many years, I was working in another career, and when we were on holidays, we were out on the lake, or we were somewhere beautiful, I would say, 'Oh my God, I wish I could paint that.' And so, when I was in my 40s I realized I was running out of time if I didn't do something. So, it took me eight or nine years to get my life together to the point where I could say 'Yes, okay, now I'm painting.' and I started to paint," she said.

She advises that people wanting to develop creative skills get started working at them as soon as possible.

"Don't ever not do it. So, it takes 10,000 hours to gain mastery of something, you may have heard of that concept, right? So, if it takes 10,000 hours, for mastery, you need to accumulate that time over a long period of time. So, if you're creative, you need to do creative things to build that [if you want to become a master of it]," she said.

Bev Hart

Hart is a Selkirk local who is well known in the area for her painterly art style. This month she has brought many of her multi-media pieces to the gallery.

"The pieces that I have are mostly a lot of faces and women, although I do like to [paint] some men too, but it's mostly fun things that I draw from my past, from my memories, as a child, and I have good memories," she said.

Hart says that she's been a creative person all her life and so art has been something that she's continued to explore since she was a child.

"I learned how to use a needle and thread when I was five. I could sew buttons on and so because I could do that, I felt I could do anything in the creative world. I grew up with that type of thing, sewing, making quilts, doing things with my hands," she said.

She encourages people who want to be creative in our community to not be afraid of starting.

"I know a lot of people are afraid of white paper. I paint quite loosely and so I encourage people just to kind of make a mess and have fun with it and you can always paint over it," she said.

"Just enjoy it. It's a great way to spend your years and retirement. You just never know what you're going to come up with."

Hart also encourages people to check out the gallery not just this month but whenever they'd like to stop by.

"We want to welcome people to come in and check it out and get involved and do things. It's a wonderful place to hang out and to meet new people. I know there's people moving into the area, and the art gallery is always a safe place to come to," she said.

Marilyn McNish

McNish's artwork is very inspired by the world around us and is primarily done in a realistic style.

"I paint pretty much whatever I see. I paint many animals, people, and sometimes I create collages and make a painting out of that," she said.

Her art is recognizable in the gallery this month because of the unique way that she has of capturing the intensity of an image as well as many of her pieces being some of the bigger ones in the gallery.

As an artist, she was inspired to create when she was very young but it took her until her retirement to really find her inspiration.

"We moved up to Manigotagan and I got inspired. It was easy just to walk into an art career because nature is all around me and peace and serenity and the sunlight to paint is there. I've been doing it for now 10 years and have consistently worked at it. I'm not inspired to go to any other medium I just love doing acrylic on canvas," she said.

McNish actually started her artistic journey as an oil painter but found that the speedy dry time of acrylic paint lent better to the speed at which

people wanted to purchase her art.

"Acrylic is good for me. Watercolour is lovely. It has its own special techniques and appeal, for sure, but I didn't want to put anything behind glass. I just wanted it open," she said.

Her best advice for artists wanting to start out is to figure out if you want your art to be a business or a hobby and if you want it to be a business to treat it like one.

"If it's a business then you should do a business plan because I think makes you think outside the box. It makes you think about where should you [invest your time and] what avenues [do you want to explore]. Also, how do you want to approach it," she said.

Business pathways website to support food, agri-product businesses launched

Submitted by Manitoba government

The Manitoba government has launched a new Business Pathways website to support food and agri-product entrepreneurs, businesses and organizations throughout all stages of the business life cycle, Agriculture Minister Derek Johnson announced today during Small Business Week.

"Whether you have a new food product idea, you see an unmet demand for local food, or you want to grow a food business, the Business Pathways website can help you build your future in food," said Johnson. "This comprehensive resource fosters economic development and provides

the business management, product and process development and marketing support that new and existing agri-food businesses need to effectively enter and compete in the domestic and global marketplaces."

The new website incorporates resources, programs and services provided by business service providers and industry partners from the entire ecosystem.

The annual Small Business Week, an initiative of the Business Development Bank of Canada, runs from Oct. 16 to Oct. 22.

"I am especially pleased to announce this new resource during Small Business Week, as we celebrate the dedi-

cation and achievements of Manitoba entrepreneurs and small businesses," said Johnson.

With an abundance of productive farmland, diverse commodities, state-of-the-art research facilities, world-class transportation infrastructure and a highly skilled labour force, Manitoba is an ideal place for food and beverage manufacturing, the minister noted. The Business Pathways website complements this business-friendly environment by providing agri-food businesses with tailored information and resources as they start up, build, grow and transition, Johnson added.

"Agriculture is a major driver of

Manitoba's economy and small businesses create many of our province's skilled careers," said Economic Development, Investment and Trade Minister Cliff Cullen. "Entrepreneurialism in the food space is exciting and innovative and offers great potential for growth and expansion. This new website will take out so much of the guesswork involved in launching, marketing and succeeding as a new business."

For more information, visit www.manitoba.ca/foodbusiness.

Manitoba 4-H Council Inc. to host first annual fundraising dinner

Submitted

Manitoba 4-H Council Inc. to host First Annual Fundraising Dinner "4-H for Today and Tomorrow"

Brandon, Manitoba – Growing awareness and fostering support for Provincial programs is essential for Manitoba 4-H Council Inc. to maintain and expand the programming for all its' members. To support both of those objectives, Manitoba 4-H Council will be hosting their First Annual Fundraising Dinner to be held in the MNP Hall at the Keystone Centre on Thursday, November 10th, 2022.

"We are always focused on enhanc-

ing existing opportunities and creating new ones, helping our youth expand their knowledge and skills through experiential learning," says Shannon Carvey, Executive Director of Manitoba 4-H Council Inc. "Hosting an event like this can make those opportunities possible for the 4-H members in Manitoba, whether they be our six-year-old "Clover Buds" or our "Senior Members" from 14-17 years of age," Carvey continues. "Fantastic new experiences can happen with support from business and community. We are so excited for this event, for the information that will be

shared, and the connections made."

For over 100 years, 4-H Canada has been one of the most highly respected positive youth development organizations in Canada. 4-H in Manitoba has roughly 2000 members and 600 volunteers. Our goal is to help young Canadians "Learn To Do By Doing" in a safe, inclusive and fun environment. We believe in nurturing responsible, caring and contributing leaders who are committed to positively impacting their communities in Manitoba, across Canada, and around the world.

Contact Manitoba 4-H Council for tickets at 204-726-6136

170th Anniversary of Little Britain United Church

Submitted By Little Britain United Church

Little Britain United Church, situated on Highway 9 between Lockport and Lower Fort Garry, celebrated their 170th Anniversary on Sunday, October 16th. The day began with a special church service at 11am and was followed by lunch and cake in the hall.

There was a display of Little Britain's history as well as a DVD to watch, taken at the 160th Anniversary. Two longtime members of the church, Judy Rekrut and Fran Tobin, each with three generations of history at Little Britain United Church, shared memories of their time as members of the congregation.

The church began in 1852 with 14 Scottish Presbyterian families who had settled in the area known as Little Britain between Lower Fort Garry and Lockport. Many were former servants of the Hudson's Bay Company at Lower Fort Garry. The congregation held its first church service in Donald Gunn's home near the Red River at Lockport led by Reverend John

Black. A log meeting house with a thatched roof was then built on Donald Gunn's land to serve as a church, a school and a library. The current Old Stone Church was completed in 1874. It is the oldest United Church building in Western Canada. It was constructed by John Clouston and Duncan McRae, both congregation members and two of the most important stonemasons of the era. It is one of only five stone churches from the Red River Settlement era that remain in Manitoba.

Little Britain United Church has seen many changes over the past 170 years. As society changes, so does the congregation. In addition to people of Scottish and British origins, the church now serves an active, multicultural congregation with people of many different backgrounds including Ukrainian, Dutch, Italian, German, Irish and Pakistani to name a few.

Anyone wanting more information about Little Britain United Church and its history can visit www.littlebritainunitedchurch.ca and www.littlebritainunited-church.ca/history/.

Carman Gun Show returns this Saturday, Oct. 29

By Ty Dilello

The Carman Gun and Hobby Show will be returning for their 31st year on Oct. 29 (Saturday) from 9 a.m. to 3 p.m. at Carman Hall (60 1st St NW).

Admission is \$5 for the day, and food will be served by Crazy Ladies Cafeteria in Carman.

The organizer for the event is Bruce Reid, and he can be contacted at carmangunshow@gmail.com.

"This year, we have several new vendors, and one of them is an expert knife sharpener who's going to have his outfit there," said Bruce Reid. "As always, there will be a large selection of new and used guns, and all of the accessories to go with them for sale."

The Gun Show has a special charity portion to the event as they raffle off an item and donate the proceeds to a different charity every year. This year, the proceeds will go to STARS Air Ambulance.

Reid notes that the Carman Gun Show is historically one of the top gun shows in Manitoba, as there will be at

least 81 tables this year, with vendors coming all over from Saskatchewan, Manitoba, and Ontario.

The spring show was very well attended and had over 1,000 people come through to check out the vendors.

"It's one of the only locations you can go and see so many guns at one point. The owners know all the info and history about the guns, so you're getting all that knowledge firsthand. The atmosphere is great, and everyone seems to have a common idea as it's the same kind of hobby."

Reid is excited to see how many people will come out this Saturday to the Carman Hall.

"It's going to be great. There's lots of vintage war stuff that shows up at these shows. Mostly from World War II, but there will be some pre-World War I and other wars too. We hope to see everyone out at the Carman Gun Show."

RECORD FILE PHOTO BY BECCA MYSKIW

Carman's Gun Show organizers are hoping for a large turnout for their gun show this Saturday with 81 vendors.

In this time of uncertainty it's important to protect yourselves and your furry family members!

Unfortunately the parasites affecting ourselves and our pets don't take a break. Deer ticks, which carry Lyme and other diseases, are prevalent at 4 degrees and have been seen in every month in Manitoba. We all know those mosquitos are everywhere and many are carrying Heartworm disease. Make sure your pets are on Heartworm Prevention from June to November and Tick Prevention throughout the year. Oral monthly chews are available for both Heartworm and Tick Prevention from your veterinarian by prescription.

Youth musicians raise funds for LSRCSS scholarship

RECORD PHOTOS BY GREG MCKENZIE
The Legion partnered up with Keith Irwin Productions and Fred Buhay to support youth music in our community. On Oct. 15, \$6485 was raised in support of the LSRCSS Ben's Guitar Award. This award commemorates 15-year-old Ben Harris who in 2018 was tragically killed near his home on Hwy 9, south of Lockport by a driver of a stolen truck who was impaired by drugs. Ben pushed his friend out of the way to save his life. Ben was a freshman at the Comp, and a young budding guitar player, who was dedicated to his craft and so it made sense to have youth musicians performing at this event. Keith Irwin, Fred Buhay, Ian Walesiak, CJ Loaner and Marc Bowman's band Top Line also played at the event. Pictured clockwise from top left: Oren Rosger, Keira Rosger, Conor Nagy and David Beaque.

> MEAL IDEAS

Popcorn Caramel Apples

Yield: 4 apples
1 quart freshly popped popcorn
1 package (9 1/2 ounces, 35 total) caramels, unwrapped
1/4 cup light cream or half-and-half
4 lollipop sticks or wooden candy apple sticks

4 apples
1/2 cup chocolate chips
sugar sprinkles
decorative ribbon (optional)
Place popcorn in large bowl; set aside. Place sheet of waxed paper on work surface.

In small saucepan over medium-low heat, heat caramels and cream. Stir frequently until caramels are melted and cream is blended into caramels.

Push one stick into apple center and dip into caramel. Spoon caramel over apple to coat. Repeat with remaining apples

Place caramel-coated apple in bowl of popcorn and press popcorn onto caramel to cover. Place apple on waxed paper to set; repeat with remaining apples.

In small, resealable plastic bag, microwave chocolate chips 10 seconds and press chips to aid melting. Repeat, heating at 10-second intervals, until chips are completely melted. Cut small corner off bag and squeeze chocolate onto each apple, allowing chocolate to drip down sides. Sprinkle with sugar sprinkles.

Tie bow to each apple stick, if desired. To serve, cut apples into slices.

Dear Money Lady Readers: Last edition we chatted to Patricia about the benefits of DCA, (dollar cost averaging) and the pitfalls of RDCA, (reverse dollar cost averaging). As promised, here is the solutions to creating a life-long income in retirement and ensuring you retain capital preservation.

Economists have always stated that on average, most retirees should expect to endure at least 3 to 5 downward swings to the equity markets during an average retirement of 20 to 30 years. If your retirement income is withdrawn from a fluctuating asset class such as equities, it not unreasonable to expect to lose between 20% to 50% of your portfolio over a typical retirement time horizon of 25 years.

Once you do your hard-stop to working, your investment portfolio converts from a savings plan to a distribution plan. Market swings during routine withdrawals create permanent and unrecoverable losses to your retirement portfolio. The problem arises when investment shares are sold to create income and therefore are no longer in the portfolio to participate in the recovery. Add to this the current problem of rising inflation, and you have a toxic mix. Retirees will soon need to withdraw more than they originally anticipated due to reduced purchasing power. There are two ways that inflation hits a retirement portfolio: 1) The need to withdraw more from investments to meet the higher priced living expenses. 2) The central banks increase interest rates, which pushes down share prices and reduces the value of a retirement equity portfolio. The net effect is that the retiree is forced to withdraw increasingly larger amounts from their investments and must do so from a constantly shrinking asset base. So, what should you do?

The following are different retirement income strategies that you could

Ask the Money Lady

consider with your advisor to create a "lifelong income" to reduce the risks of RDCA and the current rising inflation. I want you to consider these options that I believe will minimize or in some cases, even eliminate the harmful effects to your portfolio, (they are at least worth a conversation with a professional).

1. Set up withdrawals from money market funds only. Do not choose fluctuating investments such as equity funds, income trust funds, balanced funds or even bond funds.

2. Distributions from mutual funds, income trusts, dividends and interest payments from bonds should accumulate in a money market fund instead of being reinvested. Periodic withdrawals should come out of this money market fund only.

3. RRB-Real Return Bonds are fixed income assets which provide inflation protection. Discuss this option with your advisor to make them part of your asset mix.

4. Consider Annuities. Life annuities and a simple investment portfolio is considered to be the "perfect mix" formula for retirement lifelong income.

5. Avoid rebalancing your portfolio too often. Frequent rebalancing causes significant damage to your portfolio.

ATML TIP: If your withdrawal rate if 5% or less, it is better to rebalance once every four years (preferably at the end of the US presidential election year).

6. Discuss withdrawal rates with your advisor and what you will need to do if your portfolio suffers a 5%, 10%, or even 20% loss. Make sure you understand the products you are in to determine not just their potential but also their risk. Consider SMA products.

7. Indexation and management costs will increase over time and will inevitably put pressure on the portfolio to have increased gains to break even. Keep this in mind when discussing alternative products with your advisor. De-

Christine Ibbotson

termine how the advisor/firm are paid and work out what this cost is annually. Make sure it's worth it.=

Once you enter retirement and you switch to a distribution portfolio, the tendency is to choose low income and ultra-safe investments. In reality, you need to have significantly higher gains to break even when you are taking money out of your portfolio. That is because not only does a retiree need to recover the market losses, but they also need to recover the differential losses between the original plan and the actual portfolio value. When it comes to your retirement and securing your finances, try not to spend too much during the early years. Your mission must be to preserve capital and live more modestly than you did when you were working. After all, by the time you get to retirement, you should have very little to buy because you should already have everything you need. Make sure you retire without debt. Do not take on any large renovations, big ticket purchases, or unnecessary expenditures that eat away at your base capital.

Good Luck & Best Wishes,
ATML - Christine Ibbotson

Atom Thunder lose semifinal game

By Brian Bowman

The Interlake Thunder Atom football team's season is over after a 32-8 semifinal loss to the Falcons Football Club last Saturday.

The Falcons scored a late first-half touchdown to lead 14-0 at the break. The winners then closed out the game with a late TD.

"We played well but there were some injuries so they were a little too much for us," said Thunder head coach Jared Boville. "Our defence held out until pretty much the fourth quarter and they just opened it up a bit. Our D just got tired and couldn't hold them any more."

Interlake finished its regular season with a 2-3-1 record. Two of those losses came against the first-place Falcons.

The Thunder got better and better each week.

"There was definitely improvement throughout the season," Boville said. "Half of our team had played (football) before and the other half had not played."

Boville said this was a great group of kids to coach.

"It was a good season. The boys played hard," he said. "It was a really nice group of kids and a nice group of parents."

Royals defeat Dakota Lancers

Staff

The Selkirk Royals picked up their first Winnipeg High School Hockey League win of the season last Thursday.

Selkirk skated to a 3-2 road win over the Dakota Lancers.

Andrew Carter led the Royals with two goals while Gaven Berry also tallied.

On Oct. 17, the Royals were defeated 4-1 by the Garden City Fighting Gophers at the Recreation Complex.

Nathan Ramos-Lam scored for the Royals.

Selkirk (1-1) hosted the Westwood Warriors this past Monday but no score was available.

The Royals will play at Steinbach next Wednesday (4 p.m.).

Steelers earn first win of the season

Staff

The Selkirk Steelers earned their first win of the MJHL season with a convincing 7-3 home win over the Winnipeg Freeze last Wednesday.

Selkirk, which held period leads of 4-0 and 6-3, received goals from Mathieu Moreira (two), Deshon Friesen, Mathieu Catellier, Joel Purdom, Cameron Hibbert, and Lucas Gillson.

Tyson Smith had three assists.

Tristan Bear (two) and Eric Mork replied for the Freeze.

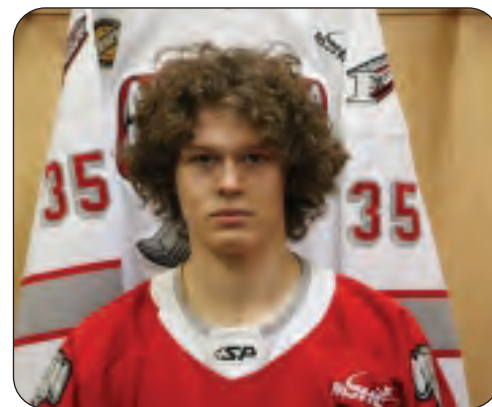

Josh Kirton made 30 saves for the win.

On Sunday, the Steelers were shut out 3-0 by the Pistons in Steinbach.

Warren Clark scored a power-play goal in the first period and then Brett Kaiser tallied early in the third.

Travis Hensrud closed out the scoring with Kirton pulled for an extra attacker.

In off-ice news, Catellier was named one of the three MJHL players of the

Mathieu Catellier

week on Monday. The third-year forward from Winnipeg had a goal and four assists in three games.

Selkirk, now 1-9-2-1, will hit the road this weekend to play Swan Valley on Friday and OCN Saturday. Both games will start at 7 p.m.

RECORD PHOTO JOHN PODWORNIAK

The Steelers' Carter Cormier had an assist in Selkirk's 7-3 home victory over the Winnipeg Freeze last Wednesday.

Einarson and Dunstone fall in Grand Slam final

By Ty Dilello

Gimli's Kerri Einarson reached the final last weekend of the HearingLife Tour Challenge Grand Slam event in Grande Prairie, Alberta.

Einarson lost in the final to Ontario's Rachel Homan 8-4, who captured a record 12th Grand Slam for skips. For Einarson, it was their team's fourth straight Grand Slam final and second consecutive finalist result for Einarson and her team of Val Sweeting, Shannon Birchard and Briane Harris.

Einarson led 3-2 going into the fourth end, but then Homan made a terrific shot with her final rock to score three

points and take a 5-3 lead. From there, Homan would not look back, as she won the game in seven ends.

Einarson earned \$20,000 and a ton of world-ranking points for reaching the final.

Winnipeg's Matt Dunstone (featuring Gimli's B.J. Neufeld and Colton Lott) also reached the finals of the Grand Slam event before losing to Sweden's Niklas Edin 7-3.

It was an exciting matchup as skip Niklas Edin went down the night before the final with an apparent knee injury, so the Swedish rink only curled

with three players.

Oscar Eriksson, who usually plays third, was forced to come in and skip the final. And Eriksson shot the lights out, giving Team Dunstone very little out on the ice.

The turning point came in the sixth when Eriksson capitalized on some critical misses from Dunstone to crack a three-ender to open the game.

Like Einarson, Team Dunstone also picked up \$20,000 for their efforts on the week of making it to the finals.

The HearingLife Tour Challenge featured a men's and women's Tier

II Grand Slam. On the women's side, Vancouver's Clancy Grandy downed Edmonton's Jessie Hunkin 8-2 in the final to receive an invitation to the next Grand Slam of Curling event, the WFG Masters in Oakville, Ontario.

On the men's side, Korey Dropkin and his American squad captured their second consecutive Tier II title with a 6-3 win over Aaron Sluchinski of Calgary. With the win, Dropkin earned an entry into the Co-Op Canadian Open Grand Slam in Camrose, Alberta, with travel and accommodations provided.

Interlake, Dauphin to clash in varsity playoff matchup

By Brian Bowman

The playoffs are always fun.

But this Saturday's varsity playoff game between the Interlake Thunder (5-2) and the Dauphin Clippers (6-1) is going to be really fun.

Kickoff is 2 p.m.

The game pits the potent Thunder offence (league high 353 points scored)

against the Clippers' stingy defence (league low 114 points allowed).

"It's the semifinals so if we lose then we're out," said Thunder head coach Mitch Obach. "We had a really good game with them early in the year but it was week three and a lot has happened since then. It's the league's best defence against the league's best of-

fence so we'll see how that plays out. I'm looking forward to it."

The Thunder wrapped up their regular season with a dominating 65-12 home win over the Swan Valley Tigers last Thursday.

Interlake stormed out to a 22-0 lead and then led 43-6 at half-time.

"It was, by far, our most complete ef-

fort of the season," Obach said. "We approached it as a playoff game. Had we lost, it was possible that we would be eliminated. We went in as a must-win playoff game and right from the start the guys were great. We kicked off and the defence made a big stop and then we went down and scored. We did that time and time again."

Scott named to Canada's long track team

Speed Skating Canada

Speed Skating Canada announced the provisional composition of its long track teams for this fall's ISU World Cup Speed Skating events, which includes a pair of competitions on home ice this December in Calgary.

A member of that team is Clendeboye's Alexa Scott.

Canada's team for the first two World Cups in Norway and the Neth-

erlands will be comprised of 16 skaters. Seven additional skaters will join the squad for the first of two consecutive World Cups in Calgary due to an increased quota for the host country, with one more added for the second home World Cup, bringing the total to 24 Canadian competitors.

Sixteen skaters have been provisionally selected to represent Canada at the first two ISU World Cup Speed

Skating events of the season. The team will kick off the international campaign in Stavanger, Norway (Nov. 11-13), before travelling to Heerenveen, Netherlands (Nov. 18-20).

The remaining skaters include Jordan Belchos (Toronto, Ont), Cédric Brunet (Gatineau, Que.), Laurent Dubreuil (Lévis, Que.), Christopher Fiola (Montreal, Que.), Graeme Fish (Moose Jaw, Sask.), Antoine Gélinas-

Beulieu (Sherbrooke, Que.), Connor Howe (Canmore, Alta.), Tyson Langelaar (Winnipeg, Man.), Ivania Blondin (Ottawa, Ont.), Carolina Hiller (Prince George, B.C.), Béatrice Lamarche (Quebec City, Que.), Valérie Maltais (La Baie, Que.), Brooklyn McDougall (Calgary, Alta.), Isabelle Weidemann (Ottawa, Ont.), and Rose Laliberté-Roy (Saint-Étienne, Que.).

Varsity boys reach semifinals of home volleyball tournament

Staff

The Selkirk Royals reached the semifinals of their 16-team home tournament last Saturday.

Selkirk was defeated 2-0 by scores of 25-18 and 25-16 by the Miles Macdonell Buckeyes.

Miles Macdonell went on to win the tournament with a 2-0 (25-12, 26-24) victory over the River East Kodiaks.

The Royals reached the semifinals after beating Steinbach Regional 2-1 (15-25, 25-21, 15-10) in a quarter-final match.

In pool play, Selkirk posted a 2-1 record to place second out of four teams. The Royals defeated Gabrielle Roy Les Roys 2-1 (25-18, 17-25, 16-14) and the Sturgeon Heights Huskies 2-0 (25-18, 25-13) but lost 2-0 (14-25, 19-25) to River East.

Selkirk hosted the Kodiaks this past Monday in league

play but no score was available at press time. The Royals will continue KPAC action on

Wednesday when they visit the MBCI Hawks. Game time is 6 p.m.

Fun By The Numbers

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test!

Level: Intermediate

Here's How It Works:

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

CITY OF Selkirk

**NOTICE OF PUBLIC AUCTION
SALE OF LANDS FOR ARREARS OF TAXES
CITY OF SELKIRK**

Pursuant to subsection 367(7) of The Municipal Act, notice is hereby given that unless the tax arrears for the designated year and costs in respect of the hereinafter described properties are paid in full to the Municipality prior to the commencement of the auction, the Municipality will on the **15th day of November, 2022**, at the hour of **2:00 PM**, at Selkirk Recreation Complex Banquet Hall, 180 Easton Drive, proceed to sell by public auction the following described properties:

Roll Number	Description	Assessed Value	Amount of Arrears & Costs for Which Property May be Offered for Sale
128100	LOTS 11 AND 12 BLOCK 5 PLAN 2289 WLTO IN RL 34 AND 35 PARISH OF ST CLEMENTS - 421 SELKIRK AVENUE	L -\$73,700 B -\$194,900	\$14,111.18
226200	LOT 31 BLOCK 1 PLAN 15747 WLTO IN RL 58 AND 59 PARISH OF ST CLEMENTS - 455 JEMIMA STREET	L -\$34,000 B -\$98,300	\$10,582.30

The tax sale is subject to the following terms and conditions with respect to each property:

- The purchaser of the property will be responsible for any unpaid municipal utilities and any property taxes not yet due.
- The Municipality **may** exercise its right to set a reserve bid in the amount of the arrears and costs.
- If the purchaser intends to bid by proxy, a letter of authorization form must be presented prior to the start of the auction.
- The Municipality makes no representations or warranties whatsoever concerning the properties being sold.
- The successful purchaser must, at the time of the sale, make payment in **cash, certified cheque or bank draft** to the City of Selkirk as follows:
 - i) The full purchase price if it is \$10,000 or less; OR
 - ii) If the purchase price is greater than \$10,000, the purchaser must provide a non-refundable deposit in the amount of \$10,000 and the balance of the purchase price must be paid within 20 days of the sale; AND
 - iii) A fee in the amount \$367.50 (\$350 + GST) for preparation of the transfer of title documents. The purchaser will be responsible for registering the transfer of title documents in the land titles office, including the registration costs.
- The risk for the property lies with the purchaser immediately following the auction.
- The purchaser is responsible for obtaining vacant possession.
- If the property is non-residential property, the purchaser must pay GST to the Municipality or, if a GST registrant, provide a GST Declaration.

Dated this 24th day of October, 2022.

Reporter/Photographer Wanted

Are you a natural born storyteller with an eye for photography and a passion for community news? Carman-Dufferin Standard is currently seeking a full-time reporter and photographer to join its multi award-winning weekly community newspaper.

We are looking for someone who is both motivated and passionate about being the best outlet of interesting and breaking news stories and event coverage in the Carman-Dufferin area and surrounding area communities.

Qualifications:

- A post-secondary degree/diploma in journalism or equivalent experience in a related field
- Strong photography and writing skills with an interest in social media
- Self-starter with the ability to exercise solid news judgement
- Ability to establish professional relationships to consistently source and write a wide range of stories and cover events in a fair, balanced and accurate manner
- Able to work both independently and as a team on a flexible work schedule including both evenings and weekends to meet our weekly editorial deadline
- Experience covering council and school board meetings
- Knowledge of CP Style and about the Interlake and its surrounding communities would be an asset

Please forward your resumé along with three writing and photography samples to:

Lana Meier
 Email: news@stonewallteulontribune.ca
Deadline to apply is Friday, October 28, 2022.

WHY CLASSIFIEDS WORK

Classifieds are inexpensive.

This is perhaps the biggest advantage of using this form of advertising. Payment is generally based on the number of words or the lines of copy used in the ad. Given the low cost, you can actually run an entire series of classifieds ads. The inexpensive nature of the ad means you can reach out to your prospects on a regular basis without breaking your bank account.

Classifieds are great for generating leads.

You invite them to contact you by phone, mail, or e-mail, etc. When the contact is made, you simply follow-up with a sales call or email.

Classifieds can be used for local and regional audiences.

It's been said that the classified is the one tool that allows the little guy (or gal) to be more competitive. It enables the small businessperson to reach his or her audience on a small budget, no matter where they live.

MANITOBA MÉTIS FEDERATION

Now Hiring For: **CHILDCARE CENTRE POSITIONS**

REASONS TO SHOP LOCAL

- Locally grown food is fresher & tastier than goods shipped from far away and products travel shorter distances and sometimes have less packaging which creates less waste.
- Buying local stimulates the economy, creates jobs and attracts investors to your region.
- Knowing the local shop owners means you get personalized service and a sense of community wherever you go.
- Encouraging local merchants teaches your children the importance of community
- Buying local means spending less money on gas, you spend less time travelling and more time with the people you love.

ANNOUNCEMENT

CARD OF THANKS

It is with heartfelt appreciation that we at Cambridge House in Selkirk wish to express gratitude and appreciation to Harry's Foods and M&M Food Market for the service provided through the COVID pandemic. It is at times of trial as was presented during a mandated lockdown compounded by other challenges that the true citizens of the community step forward to make a difference for those faced with the greater obstacles in maintaining some semblance of normalcy. The good people at these businesses proved their worth to our community by stepping up where others fell short and played a needed role in ensuring certain necessities continued to be made available. Going above and beyond the call of duty might describe how their service was regarded and life-long customer loyalty will be reward. Thank you.

-Liz, Gwen, Elaine, Peggy, Linda and Dolores

IN MEMORIAM

In Loving Memory of
Len Berry

March 5, 1957 - October 25, 2021

This month comes back with sad regrets,
It brings back a day we will never forget.
The tears we shed will wipe away,
The ache in our hearts will always stay.
Life goes on, we know that's true,
But not the same since we lost you.
Today, tomorrow and all year through,
We will always love and remember you.

-Forever loved and sadly missed by

OBITUARY

Michael Grant Gordon
February 25, 1955 – October 11, 2022

It is with great sadness that we announce the sudden passing of Michael "Mickey" Gordon on Tuesday, October 11, 2022 at the age of 67 years. He was surrounded with loved ones by his side at HSC hospital.

Mickey will be lovingly remembered by his wife Nancy, of 47 years. His sons Will (Jasmina), Rob (Holly); daughter Christina; grandchildren Gabbi, Brayden, Mackie, Maja, Gavin, Taylor and Zane; his twin Laurie and other siblings Glenn and Kathy; along with many relatives and friends. Predeceased by his brother Ken and nephew Jarrett.

Mickey was born and raised in Winnipeg. He joined the Canadian Naval Reserve where he met his soulmate, Nancy. Mickey worked as an engineer for CP Rail for 37 years. He was a Scouting (Cubs) leader for 26 years in both Winnipeg and Selkirk. Mickey was a very creative and talented artisan who loved to create with his hands. Mickey and Nancy moved to Libau to raise their three children in the country.

He loved spending time with his wife, kids, grandkids, large extended family and pets. All those who knew Mickey, loved and were inspired by him and his big heart.

Mickey will be cremated, with his final resting place at Glenn Eden Cemetery. We will have a celebration of his life in the spring.

The family would like to thank the doctors and nurses of CancerCare Selkirk & HSC for their care and compassion.

Family and friends may sign a Book of Condolence at www.glenedenmemorial.ca
